

English Speaking Hospitals and Doctors in Strasbourg

The following list is part of a wider list of physicians, health care providers, and medical facilities maintained by U.S. Embassies and Consulates for distribution to American citizens.

The inclusion of a specific physician, health care provider, or medical facility does not constitute a recommendation. Names are listed alphabetically, and the order in which they appear has no other significance. Professional credentials and areas of expertise were provided directly by the medical professional, medical facility, health care provider, or air ambulance service. This list is updated triennially. The current version is from June 2014.

We do not assume responsibility or liability for the professional ability or reputation of, or the quality of services provided by, the medical professionals, medical facilities, health care providers, or air ambulance services whose names appear on such lists.

Important Note: Before making an appointment to see a medical professional in France, ask for consultation fees in advance in order to avoid issues concerning payment for services.

A more complete list of physicians can be found in the [French Yellow Pages](#); general practitioners are listed under Médecin Généralistes, & specialists under médecins qualifiés and their specialty, e.g. pédiatrie, cardiologue etc. See last page of this document concerning French health insurance.

French emergency services are described on this website page:
